

# AI, Chatbots & Online Safety A Parent Guide

Your child learnt about AI, chatbots and staying safe online today.

# Understanding Digital Friendship

## Human vs Digital

Recognising the difference between real friends and AI interactions.

## Safe Interaction

Learning how to use technology responsibly and securely.

# When Can AI Be Fun?

## Jokes & Stories

Ask AI for jokes or stories about favourite animals.

## Learning

Find interesting facts and answers about the world.

## Music

Play favourite songs through smart speakers safely.

# Never Share Personal Information

Chatbots may feel like friends, but they're actually strangers.

## **Real Name**

Keep your identity private and protected.

## **School Name**

Never reveal where you attend school.

## **Home Address**

Your location must stay confidential always.

## **Secrets**

Personal information belongs with trusted adults only.

# Never Use AI For Harm

Technology must be used kindly, not to upset others.

## Creating Fake News

Never write untrue stories to trick people.

## Hurtful Messages

Don't ask AI to write mean words.

## Embarrassing Images

Never create or alter pictures to embarrass someone.

## AI & Homework: Important Note

### **AI Can Be Wrong**

It sounds confident but makes mistakes frequently.

### **Don't Use for Homework**

Using AI stops your brain from learning properly.

### **Ask Trusted Adults**

Teachers and parents provide better help than chatbots.

# Talk With Your Child

Reinforce today's lesson with these conversation starters:

"What should we never tell a chatbot?"

"Why is a real friend better than a computer friend?"

"Who should you talk to if something online worries you?"

Remember: Parents and teachers are the best support.
